

Sciencenter Connection: Sciencenter Summer Camp is Around the Corner

Teresa Bell

Want to provide your kids with a fun, exciting and science-filled summer? Register today for Sciencenter Summer Camp! Our one- and two-week day camps are open to children entering kindergarten through grade 6 in the fall. Registration is easy with our new online form at www.sciencenter.org.

A typical day at Sciencenter Summer Camp is loud, messy, fast-moving and full of fun! Camp includes both indoor and outdoor hands-on activities, games, challenges, experiments, field trips, and special presentations.

Camp days begin and end at the Sciencenter, and include museum exploration and so much more. We plan an assortment of active, physical games, focused science experiences, special presentations, and free exploration of the museum and our outdoor Emerson Science Park.

Campers spend their days playing games and experimenting indoors and outdoors (weather permitting).

Making ice cream, launching rockets, and dropping eggs is all in a day's work.

Each session includes field trips to venues that are within one mile, such as Stewart Park, Cascadilla Gorge, and the Farmer's Market Pavilion.

Special guest presentations are themed to each session - scientists and experts in their field offer intriguing, hands-on demonstrations on a variety of cool science topics, like gadgets or amphibians.

Our friendly camp community has a low camper-to-staff ratio that allows kids to participate in high-quality programming and develop personal relationships with the staff. All of our camp counselors have science backgrounds and experience working with children.

Camp starts June 30, so sign up today for one or more sessions. Science experience is not required – there is a full range of topics and activities that will appeal to all levels of science knowledge. Plus there is a variety of themes like “Investigate! Science,” “Build! Engineering,” “Explore! Space,” and “Discover! Life on Earth,” so there's something for everyone.

Science enthusiasts entering grades 7 to 9 are invited to apply for volunteer positions in the Future Science Leaders Counselor-in-Training Program – applications are due May 1.

Learn more about Sciencenter Summer Camp and register online at www.sciencenter.org. Also check out our complete monthly line-up of Sciencenter events and activities. Sign up for our monthly e-News to stay in-the-know, and join us on Facebook & Twitter for exclusive photos and news.

Teresa Bell is the Public and Media Relations Manager at the Sciencenter.

Sciencenter Connection appears the second Thursday of the month in Ticket.
