

Sciencenter

Sensory Hours

A special event at the Sciencenter

*A story for kids who have visited the
Sciencenter before*

Sciencenter

My name is _____ and I like going to the Sciencenter.

I am invited to a special event at the Sciencenter on _____.

What is the special event?

The Sciencenter is hosting **Sensory Hours** to celebrate the seven senses in the human body! The senses are:

SIGHT

TOUCH

SMELL

TASTE

HEARING

MOVEMENT

BALANCE

The seven senses are different in kids.

Some kids like bright lights, and others do not.

Some kids love loud noises, and some kids need quiet.

Some kids need to jump, climb, and move.

Other kids like to have both feet on the ground.

**The Sciencenter has
activities for all the kids!**

Many of the Sciencenter exhibits that I know will be open during Sensory Hours.

Many places at the Sciencenter will be the same during Sensory Hours.

I may see some changes at the Sciencenter during Sensory Hours.

Some exhibits may be closed, so it is less noisy.

Some exhibits may be covered or moved, so there is more room for kids to move around.

Some exhibits may have special signs to tell me how my senses might react.

There will be areas where kids can take a break from the crowds, lights, or noise.

The Sciencenter is making these changes during Sensory Hours to help everyone have a good time.

The Sciencenter will also have special items for me to use if the museum gets too loud or crowded.

I am invited to Sensory Hours at
the Sciencenter!

I am invited to use my seven senses and to
learn about science!

For more information about Sensory Hours at the Sciencenter,
please visit www.sciencenter.org or call (607) 272-0600.
