

Saying Safe at the Sciencenter

.....

A story for _____

by Racker 

.....

This story meets Social Story 10.2 criteria

My name is _____
and I like to visit the Sciencenter.

ADULT

An adult comes with me when I visit the Sciencenter.

An adult comes with me to keep me safe.

When I visit the Sciencenter I will try to stay where the adult can see me.

Staying where the adult can see me is an important safety rule.

I'm done now. Let's go to the magnet table next.

When I am finished playing with one exhibit I can tell the adult, “I’m done now.” This helps the adult know that I am ready to try something else.

I will try to wait for the adult to go with me to the next exhibit. This helps me stay safe.

I need to use the restroom now.

Sometimes I need to use the restroom at the Sciencenter. When I need to go to the restroom, I will try to remember to tell the adult where I am going. Telling an adult where I am going is a safe thing to do.

When I stay where the adult can see me, it helps keep me safe.

When I tell the adult where I am going, it helps keep me safe.

Staying safe at the Sciencenter is a smart thing to do!
