Hang out... in the trees

Immerse yourself in an indoor tree house! Try stereoscopic viewfinders. Look for tracking clues and natural artifacts. Turn a tree into a house—and back again—by turning a dial. Learn how to become a responsible forester through sustainable logging. Find out how trees sustain life on Earth!

TreeHouses was developed by the Environmental Exhibit Collaborative (EEC!) and funded by Jane's Trust, the Institute of Museum and Library Services (IMLS), and the Cabot Family Charitable Trust.

RENTAL FEE:
\$26,000

SIZE:
1,500–2,000 sf

SHIPPING:
Inbound only | 1 truck

Accompanied by technical manual, educational materials, and marketing kit

EXHIBIT HIGHLIGHTS:

Stomp on the *Forest Sound Dance Floor* to make woodpecker tapping sounds and turkey gobbles

Design and build a model tree house

Be an animal tracker as you hunt for signs left by bear, raccoon, and skunk

MUSEUM BENEFITS:

Immersive environment

Great for field trips

Timely environmental message

LEARNING GOALS

- Trees provide habitats for many different animals
- Trees are used to make many different products in our lives
- We can be environmental stewards by planting trees
- Animals leave identifiable traces behind, such as footprints, scratch marks, and scat
