

A Trip to the Sciencenter

A story for _____

by Racker 

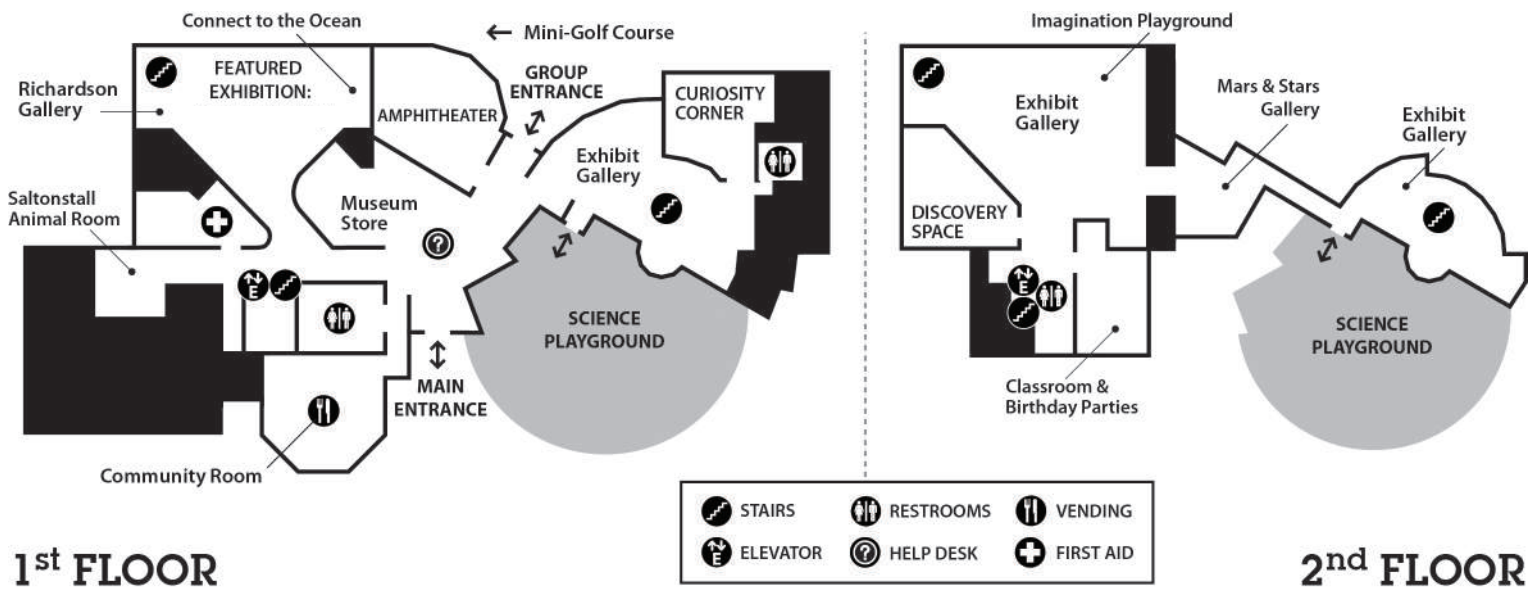

This story meets Social Story 10.2 criteria

I am going to the Sciencenter. The Sciencenter is a hands-on science museum. Kids learn science as they play, explore, build, look closely, climb, and listen.

When we enter the Sciencenter, we will check in at the Front Desk. I may be given a sticker. I can put the sticker on my clothing, or I can ask my adult to hold it.

The Sciencenter has a map of the exhibits on the first and second floors, inside and outside. There is a lot to explore!

If I need help, I can ask my adult or the Sciencenter staff. The staff are there to help people and explain the exhibits.

The Sciencenter can get crowded. If there is a line to see an exhibit, or if many kids are trying to play at an exhibit, it is okay to move to another exhibit.

Kids can return to play at the exhibit later in the visit, or if they come back to the Sciencenter another day.

I am going to the Sciencenter, a hands-on museum that can be a lot of fun!

For more information about Sensory Hours at the Sciencenter,
please visit www.sciencenter.org or call (607) 272-0600.
