

# I Can Borrow a Bag at the Sciencenter (sensory aids)

.....

A story for \_\_\_\_\_

by Racker 

.....

*This story meets Social Story 10.2 criteria*

The Sciencenter has a bag I can borrow during my visit.

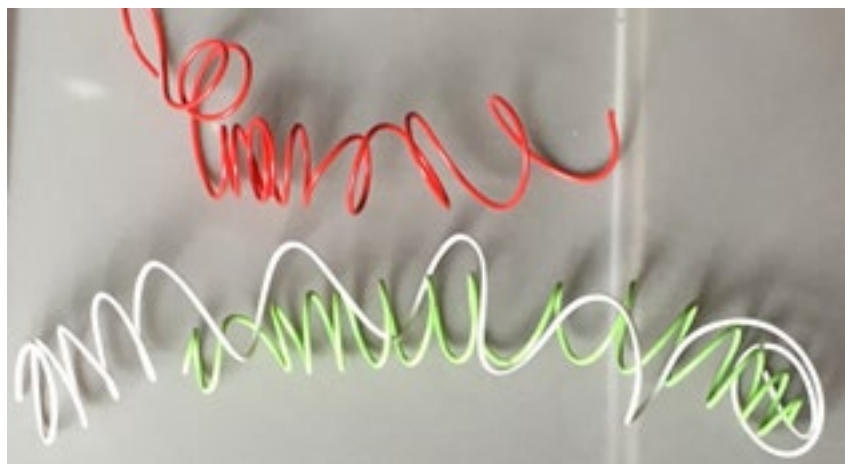

***Borrow*** means I can sign out the bag at the front desk, and take it with me around the Sciencenter. I take it back to the front desk before I leave the Sciencenter.

Many kids and adults find the bag is helpful during their visit.

I may use one thing that is in the bag, a few things, or many things.

The bag has gloves. I can wear them to touch something. It is okay to wear the gloves, and it is okay to leave them in the bag if I don't want to wear them.

The bag has wires to touch, pull, or bend.

The bag holds fidgets I can play with.

Some exhibits may be noisy. There are headphones in the bag that I can wear to block loud sounds.

And, there are sunglasses that block out bright lights.

There is a timer in the bag.

A timer helps people know when it is time to move to another exhibit, to go to the restroom, or go to another place.

Some people use a timer to know when they are leaving the Sciencenter.

The Sciencenter has a bag of helpful things that I can borrow during my visit.
