The Sciencenter is a children's science museum in Ithaca.

At the Sciencenter, kids learn science as they play, explore, build, look closely, climb, and listen.

The Sciencenter has a special event called Sensory Hours.

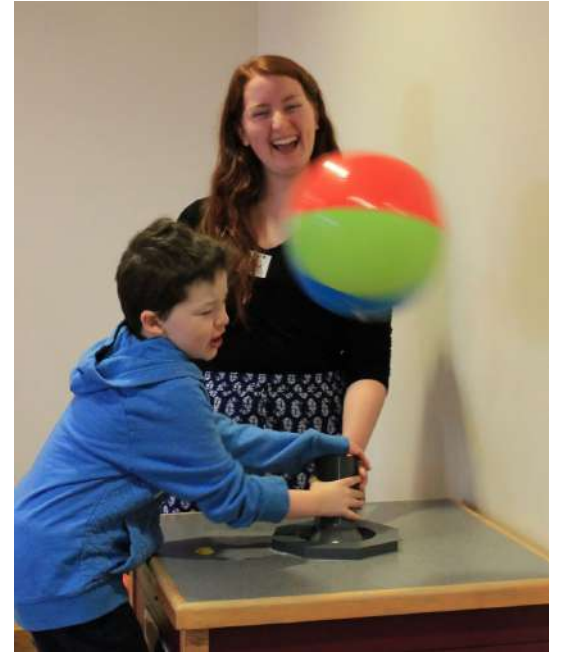

During Sensory Hours, the museum is open early for families.

The museum is quieter, and less crowded than most days.

During Sensory Hours, the Amphitheater is open as a calming area. A calming area is a place kids can take a break from noise and bright lights.

I am going to Sensory Hours at the Sciencenter!

For more information about Sensory Hours at the Sciencenter,  
please visit [www.sciencenter.org](http://www.sciencenter.org) or call (607) 272-0600.
